

The Fifth International Conference on Climate, Tourism and Recreation

CCTR 2018

June 25-27, 2018, Umeå, Sweden

Organised by

Umeå University Department of Geography and Economic History

International Society of Biometeorology (ISB) Commission on Climate, Tourism and Recreation

Umeå Congress

The field of tourism climatology, addressing the interrelationships of weather, climate and climate change with tourism and recreation, has developed exponentially over the past decades. In addition to academia, public and private interests have also focused more on tourism climatology to improve climate services and climate adaptation and mitigation in the tourism and recreation sector. The Fifth International Conference on Climate Tourism and Recreation (CCTR 2018) aims to once again bring together scholars and experts from around the world to explore recent developments in tourism climatology.

Call for Abstracts

Abstracts for oral or poster presentations with a maximum of 500 words will be subject to a blind review process upon submission via conference web site – www.cctr2018.org. A post-conference call for a special issue on Tourism Climatology in a scientific journal and/or an edited volume will follow. For the CCTR 2015 issue, see [here](#).

Key Dates

March 30	Deadline for submission of abstracts
April 30	Notification of acceptance
May 1	Registration opens
May 15	Early bird registration deadline
May 30	Final registration deadline
